Bring people, content and
ideas together

The easiest way to share big ideas and watch them grow.

When you plug into simplicity, you make it easier than ever to bring people, content and ideas together.

With ClickShare you can share what's on your laptop or mobile device, on a presentation screen, transforming a meeting into a complete sharing experience with a single click.

No cables, no set-up, no waiting to join in. Meetings keep their flow and you keep your cool.

94% of users agree using ClickShare is easy.

Plug into
empowerment

No wires

ClickShare's universal USB-powered Button and ClickShare app for iOS and Android avoids the unsightly jumble of cables often seen in meeting rooms. It requires no special adaptor or port – so there's no need to carry additional wires or rummage under the table. And with no cables, you'll spend less time setting-up and more time being productive.

No software

When you plug in a ClickShare Button, there's no software to download and install. You simply accept an executable file and you're ready to go. Once finished, ClickShare leaves no software on your PC or Mac.

Simplicity

ClickShare couldn't be simpler. Everything works with the tap of a button, leaving nothing more to figure out. Connecting ClickShare does not alter your screen size or resolution, so what you see on your laptop screen is replicated on the big meeting room screen.

Stress-free

Technology is on your side with ClickShare, its intelligence works everything out for you. With ClickShare in a meeting room, you can feel confident that your important presentation will transfer to the big screen at the tap of a button.

Cross devices

Whether you present from a PC, Mac, tablet or smartphone, ClickShare has it covered. As well as the USB-powered ClickShare Button, the ClickShare app for iOS and Android expands meeting effectiveness to include content sharing from mobile devices.

Intuitive

One tap of the ClickShare Button gives you the quickest and most efficient way to access a meeting room big screen. When you use ClickShare for the first time, you'll wonder why you tolerated the hassle of cables for so long.

Team
WORK

"ClickShare allows any of the 33 operators in the Crisis Chamber to wirelessly share content from their computer or mobile device onto the video wall; at the click of a button. ClickShare truly speeds up collaboration and analysis."

Steve Franklin, Technical Director at Cinos
(British Airways Crisis Management Centre)

Plug into
efficiency

Spend less time setting up and more time sharing.

ClickShare frees everyone to share what's on their device, on the same display, simultaneously. And because it's so simple to use, colleagues, customers and associates can present with confidence straight away.

ClickShare lets everyone take a more active part in every meeting, and the more input they share, the better the outcome. And with no set-up or cable to worry about, it saves time too.
93%

of users agree ClickShare makes meetings more efficient.

NGAGE

STRESS FREE

"With ClickShare, we don't need much time to set up the system or instruct the customer. It is ready and easy to use. We can explain it in three simple steps."

Kathrin Hanisch, Director of Event Management, Marriott Munich

Plug into
confidence

No cables, no lengthy set-ups, no awkward moments.

The slides are polished. Meeting notes are in order. Everyone's waiting to share thoughts and ideas. But while you try to connect your device to the display, your anxiety rises as confidence shrinks. Sound familiar? We've all been there. With ClickShare, you'll never feel that worry again.
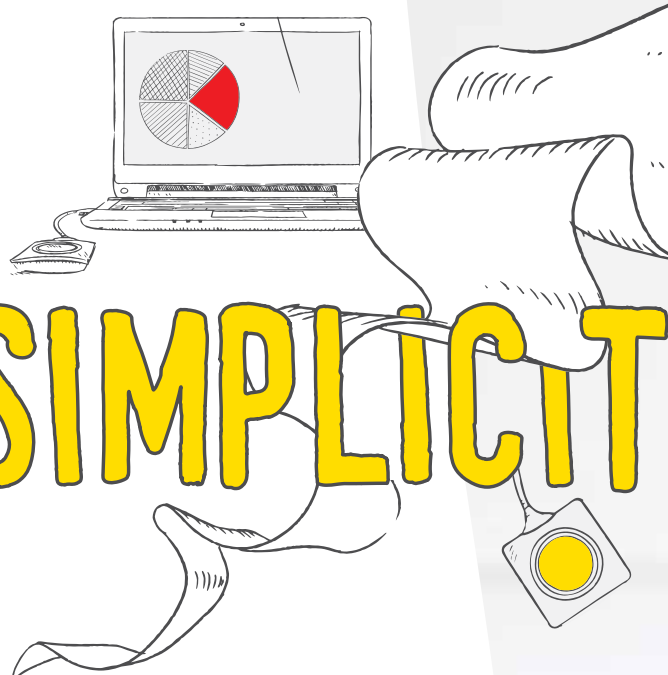

ClickShare lets you walk into any meeting room and share what you need to, no matter which device it's on – no cable, no set-up and no awkward moments.

Anyone – including guests – can connect with one click and share straight away. So, meetings start and end on time.

20% of meetings overrun due to equipment issues.

Plug into
reliability

For trouble-free sharing, every time.

You're working with clients and you need their input. But sharing on meeting room displays means downloading software, finding the right connection and trusting that technology won't let you down.

ClickShare connects wirelessly from PC's, Macs and mobile devices, giving colleagues and guests the freedom to share instantly.

There's no need for instruction, network log-in or technical support. You simply click, connect and share.

And you know you can rely on it in the long term because ClickShare is guaranteed for up to 3 years, with the option to extend to 5 years.

82% of people bring their own device to meetings, and expect to be able to present instantly.

Plug into
success

Cut ties with cables and set your organization free.

The boardroom. The conference room. The meeting room. You'll fight your most crucial battles in these arenas.

Gain the upper hand with ClickShare CSE-800. Present with confidence that sensitive data is safe behind three configurable levels of robust, enterprise-grade security. Share together with up to eight users on-screen simultaneously, and deliver engaging, hassle-free presentations every time with pin-sharp dual 4K video output. Plus, increase productivity by keeping the meeting focused and manage handovers using the new moderation functionality.

CSE-800 delivers the best value for money of any wireless presentation technology on the market. It's simple to install and easy to use, offering full integration with legacy devices and systems. This simple, centrally-managed solution works with almost everything in the boardroom, integrating with both guest and corporate networks for intuitive, straightforward sharing. And no new equipment means a lower total cost of ownership.

With no training, no downloads and no IT support to worry about, ClickShare CSE-800 slashes trouble tickets and minimizes meeting room downtime. Simple, always-on technology means meeting room queues are reduced and rooms are used more often – helping you make the most of your investment.

Our new enterprise solution just became your boardroom weapon of choice.

87% of people report experiencing technology-related stress in the meeting room. With ClickShare CSE-800 users can connect, click and share in seconds, effectively minimizing the business impact of tech-related anxiety.

NEW
Ideas

93% "The vast majority of respondents who have experienced technology-related meeting stress say it has caused wider impacts."

Plug into Simplicity

Turn stressful meetings into simple meetings

The wrong technology can ruin a meeting. But, it doesn't have to be that way. With ClickShare, you can forget about recurring requests to repair meeting room technology. Forget the frustrations. Forget the hassle. And forget the stress.

Barco ClickShare commissioned research house Vanson Bourne in March 2016 to interview 1,000 office workers who run, present at or attend meetings from across France, Germany, the UK and the USA.

Of respondents who run or present at meetings, almost nine in ten (88%) have taken actions to try and prevent technology issues. Such actions impact upon the individual and also potentially the wider organisation when it comes to productivity and efficiency.
With 87% of respondents experiencing technology related stress in meetings, this is something that is having a big impact within organisations, with the vast majority (93%) of respondents who have experienced this stress saying it has caused wider business impacts.

Almost a quarter (24%) of participants have missed deadlines as a result of technology issues and 12% have even lost out on business or sales. And for one in ten people technology struggles resulted in missed personal opportunities such as promotions or credit.

The issues with meeting room technology clearly have a potential knock on effect of damaging both personal and corporate reputations. In this environment, 74% of respondents believe that meeting technology should be taken more seriously.

Technology that works with the touch of a button is seen by over half of respondents as something that would completely help with stress-free meetings.

Plug into
presenting

App to share iOS or Android content.

The ClickShare app allows for simple and intuitive content sharing with a click of the virtual Button from any iOS or Android device. This app enables users to easily share, annotate and save pdf, jpeg images or Microsoft Office Docs to the central meeting room screen in the same way as the traditional ClickShare Button. Download the ClickShare app for free from Apple Store or Google Play, click the virtual Button and you are ready to share your content.
